INDEX TO 1973 *A/A* VOL. 11, NOS. 1-12

SUBJECTS

AIRCRAFT DESIGN AND OPERATIONS

EPA Proposes Aircraft Emission Standards, Jan., p. 12.
Midair-Collision Risk Increases, Jan., p. 14.
A Quiet Engine for Stilling Complaints, Jan., p. 40.
DAIS: A Major Crossroad in the Development of Avionic Systems, Jan., p. 55.
Aviation on a Collision Course, Feb., p. 4.
Aviation Plan: Out of Range, Feb., p. 6.
MLS: On the Beam for '76, March, p. 24.
Door To Door Short Haul, March, p. 32.
AIAA Presents Testimony on STS Study Results, April, p. 9.
Subsonic Aerodynamics, April, p. 14.
Advances in Modeling Aerodynamic Decelerator Dynamics, April, p. 67.
FAA Bans the Boom, May, p. 4.
CV 990 Airborne Laboratory Crashes, May, p. 5.
SSTs, Ozone, and Skin Cancer, July, p. 16.
Influences of International Operations on Aircraft-Transport Design, July, p. 24.
Structures for Air Transports, July, p. 36.
The Next Careful Steps in Commercial Aircraft Structures, July, p. 38.
Tomorrow's Structural Engineering, July, p. 48.
Developing Structures Technology for the Day After Tomorrow, July, p. 56.
Understanding the USAF Structural Integrity Program, July, p. 67.
The Airplane as Friend of the Earth, July, p. 73.
Aircraft Emission Standards, Aug., p. 13.
A Look at Soviet ATC and Nav Facilities and Avionics, Sept., p. 69.
The Many Uses of the Dirigible, Oct., p. 58.
Recent Advances in Aerodynamics for Transport Aircraft—Part 1, Dec., p. 30.
Bird Control at the Airport, Dec., p. 55.

COMMUNICATIONS AND COMPUTERS

DAIS: A Major Crossroad in the Development of Avionic Systems, Jan., p. 55.
Small Earth Terminals for Satellite Communications, June, p. 40.
Cost-of-Ownership Design Philosophy for Inertial Navigators, June, p. 59.
A Space and Missile Test Center of the Future, June, p. 64.
Communications Satellite Programs, June, p. 71.
Centralized Data Banks—Where Public Technology Can Go Wrong, Nov., p. 18.
The Future Shock of Information Networks, Nov., p. 52.
Goldwater Introduces Computer-Safeguards Bill, Nov., p. 55.

EDUCATION

NSF's Experimental R&D Incentives Program, May, p. 54.
Help Students Plan Their Careers, June, p. 19.
Systems and Journal Papers, Aug., p. 14.
Technical Societies, Take Public Action, Oct., p. 16.
Advice to a Young Person—On the Future of Our Profession, Oct., p. 24.

ENVIRONMENTAL SCIENCES

EPA Proposes Aircraft Emission Standards, Jan., p. 12.
Toward Space-Environment Forecasting, Jan., p. 23.
Space Life-Support and Environmental Control: Systems for the '70s, May, p. 61.
Parameters of Technological Growth, June, P. 20.
Resources and Pollution—Time (Past?) for Engineers to Act, June, p. 28.
SSTs, Ozone, and Skin Cancer, July, p. 16.
Our R&D Challenge for National Energy Policy, Aug., p. 18.
Prospecting for Energy, Aug., p. 24.
Harnessing Solar Energy: The Potential, Aug., p. 30.
Weather Satellites, Aug., p. 77.
ERTS-1 Toward Global Monitoring, Sept., p. 32.
ERTS-1 Teaching Us a New Way to See, Sept., p. 36.
A Portfolio of ERTS-1 Highlights, Sept., p. 65.
Aerospace Technology Applications, Nov., p. 65.
Energy, Lifeblood of the Cities, Dec., p. 52.

EXTRATERRESTRIAL

In the Mirror: Little Green Men, Jan., p. 16.
The Opening Message from an Extraterrestrial Probe, May, p. 58.
New Start on the Whole UFO Problem?, Nov., p. 8.

GUIDANCE AND CONTROL

DAIS: A Major Crossroad in the Development of Avionic Systems, Jan., p. 55.
MLS: On the Beam for '76, March, p. 24.
Cost-of-Ownership Design Philosophy for Inertial Navigators, June, p. 59.
A Look at Soviet ATC and Nav Facilities and Avionics, Sept., p. 69.

HISTORY

Igor Sikorsky: He Changed the Shape of Flying, Jan., p. 74.
Out of the Past, Jan., p. 72; Feb., p. 74; March, p. 76; April, p. 12; May, p. 66; June, p. 68; July, p. 78; Aug., p. 73; Sept., p. 80; Oct., p. 70; Nov., p. 78; Dec., p. 72.
A Wright Brothers Remembrance: The Challenge of Aerospace—Catching Fire, Dec., p. 14.

HYDRONAUTICS

Reflections on Designing Advanced Marine Vehicles, Jan., p. 50.
Toward the 100-Knot Navy, Sept., p. 6.
More Uses of the Airship, Oct., p. 5.

INSTITUTE AFFAIRS

Good News for the Aerospace Unemployed? Not This Year, Jan., p. 25.
AIAA—Roles and Missions, Jan., p. 27.
Ryan to Retire, Jan., p. 75.
VEST Rosters Stay High, Jan., p. 75.
AIAA Pointing for June Aviation Symposium and Technical Display in Moscow, Feb., p. 5.
Technical Assessments: AIAA Gets in the Swim, Feb., p. 10.
A New AIAA Technical Assessment: New Space Transportation Systems, Feb., p. 12.
Ad Hoc Committee on the Assessment of New Space Transportation Systems, 1971-72, Feb., p., 25.
Our Number One Priority: Membership, Feb., p. 28.
Board Backs Ashley Plan for Member Development, Feb., p. 76.
Joe Maitan to Retire, Feb., p. 77.
Message from a Symposium on National Priorities: Aerospace, Heal Thyself, Feb., p. 78.
Professional Unemployment Continues, but DOL Will Drop VEST Program, March, p. 9.
The AIAA Journal and You, March, p. 14.
AIAA Annual Meeting and Technical Display: Anything Beneath Those Unruffled Waters?, March, p. 46.
1972 President's Annual Report, March, p. 60; Section Affairs, p. 62; Technical Activities, p. 64; Education, p. 69; Publications, p. 70; Finances, p. 75.
AIAA Presents Testimony on STS Study Results, April, p. 9.
Subsonic Aerodynamics in "Journal of Aircraft," April, p. 14.
Membership Questionnaire: The Purpose of AIAA—A Call for Action, April, p. 15.
AIAA Technical Activities—Means for Your Involvement, April, p. 29.
1973 Who's Who in AIAA Technical Activities, April, p. 72.
AIAA Has Its Innings Before Moss, Proxmire, May, p. 9.
AIAA Statement Before Proxmire Subcommittee, May, p. 10.
Responding to Member Needs, May, p. 20.
Board Hears More on Pension and Job Guidelines, May, p. 68.
Ed Seymour to Direct AIAA Management and Finances, May, p. 69.
Pension Statement Presented to House Ways and Means Committee, May, p. 70.
Journal Editors Appointed, May, p. 73.
Guidelines to Professional Employment for Engineers and Scientists January 1, 1973, May, p. 75.
AIAA Moscow Meeting On, June, p. 10.
Help Students Plan Their Careers, June, p. 19.
AIAA Benefits for Professional Society Members Only? Pro and Con, June, p. 73.
Progress Report on "The Second Program," July, p. 22.
13th Anglo-American Aeronautical Conference, July, p. 73.
John Glennon to Retire, July, p. 74.
Your Stake in AIAA Publications, Aug., p. 16.
AIAA Systems Effectiveness and Safety TC Survey: Needed: Rational Testing of Aerospace Vehicles, Aug., p. 69.
UTC-3, City Managers Together for Week in Boston, Sept., p. 19.
Problems of Maturity, Sept., p. 21.
Pajaro Dunes Board of Directors Meeting: Members Endorse New Directions for AIAA, Sept., p. 78.
Advice to a Young Person—On the Future of Our Profession, Oct., p. 24.
Moscow Meeting Puts U.S. in Ballgame, Oct., p. 38.
Fink Nominated as AIAA President, Oct., p. 72.
3rd Urban Technology Conference: Centralized Data Banks—Where Public Technology Can Go Wrong, Nov., p. 18.
AIAA Action Team on Purpose: Responses from the Membership, Nov., p. 22.
Planning, Feedback, and Purpose, Nov., p. 30.
AIAA 10th Annual Meeting Preview, Nov., p. 58.
The Boston Board Meeting: Progress on Engineering Unity, Nov., p. 72.
A Wright Brothers Remembrance: The Challenge of Aerospace—Catching Fire, Dec., p. 14.
24th IAF Congress Report—Soviet Academy Hosts Congenial International Space Conference, Dec., p. 58.

INTERNATIONAL SCENE

23rd IAF Congress: Vienna, October 8-15—Toward Holistic Works, Jan., p. 62.
Impact of Space on World Development (Keynote Address at 23rd IAF Congress in Vienna), Jan., p. 63.
5th Lunar International Laboratory (LIL) Symposium in Vienna, Jan., p. 63.
What the USSR Needs in ATC Equipment, March, p. 16.
MLS: On the Beam for '76, March, p. 24.
Report—Soviet Academy Hosts Congenial International Space Conference, Dec., p. 58.
Senators Confer with Brezhnev on Trade, June, p. 8.
U.S.-USSR Joint Commission on Scientific and Technical Cooperation, June, p. 15.
Small Earth Terminals for Satellite Communications, June, p. 40.
USSR-U.S. Transportation Agreement, July, p. 4.
U.S. Approves Joint Engine Development with the Europeans, July, p. 11.
When Do We Cooperate and When Do We Compete?, July, p. 12.
Influences of International Operations on Aircraft-Transport Design (2nd William Littlewood Memorial Lecture), July, p. 24.
13th Anglo-American Aeronautical Conference: The Airplane as Friend of the Earth, July, p. 73.
A Look at Soviet ATC and Nav Facilities and Avionics, Sept., p. 69.
Moscow Meeting Puts U.S. in Ballgame, Oct., p. 38.
U.S. Aerospace Industry at the Crossroads, Nov., p. 44.
24th IAF Congress Report—Soviet Academy Hosts Congenial International Space Conference, Dec., p. 58.

MANAGEMENT

Engineers and Scientists at NASA-Marshall Vote for AFL-CIO Engineers Union, Jan., p. 9.
Technical Assessments: AIAA Gets in the Swim, Feb., p. 10.

A New AIAA Technical Assessment: New Space Transportation Systems, Feb., p. 12.
NSF Director Gets Science Policy Role, March, p. 13.
AIAA Has Its Innings Before Moss, Proxmire, May, p. 9.
Space Science Plans for the Shuttle Era, May, p. 34.
NSF's Experimental R&D Incentives Program, May, p. 54.
Parameters of Technological Growth, June, p. 20.
Resources and Pollution—Time (Past?) for Engineers to Act, June, p. 28.
A Space and Missile Test Center of the Future, June, p. 64.
When Do We Cooperate and When Do We Compete?, July, p. 12.
Our R&D Challenge for National Energy Policy, Aug., p. 18.
AIAA Systems Effectiveness and Safety TC Survey: Needed Rational Testing of Aerospace Vehicles, Aug., p. 69.
Let the Diplomats Learn from the Engineers, Sept., p. 15.
UTC-3, City Managers Together for Week in Boston, Sept., p. 19.
Science Policy Office Gears Up, Oct., p. 6.
Technical Societies, Take Public Action, Oct., p. 16.
The Law of the Proposal Jungle, Oct., p. 66.
Centralized Data Bank—Where Public Technology Can Go Wrong, Nov., p. 18.
AIAA Action Team on Purpose: Responses from the Membership, Nov., p. 22.
Government Spending and Innovation, Nov., p. 32.
U.S. Aerospace Industry at the Crossroads, Nov., p. 44.
Refreshing the NASA Charter, Dec., p. 16.

MILITARY AFFAIRS

Reflections on Designing Advanced Marine Vehicles, Jan., p. 50.
MLS: On the Beam for '76, March, p. 24.
Cost-of-Ownership Design Philosophy for Inertial Navigators, June, p. 59.
Understanding the USAF Structural Integrity Program, July, p. 67.
Toward the 100-Knot Navy, Sept., p. 6.
Preserving the Peace, Nov., p. 67.
Integral Rocket/ Ramjets for Tactical Missiles, Dec., p. 20.

PROPULSION AND POWER

Laser-Initiated Fusion—Key Experiments Looming, Jan., p. 28.
A Quiet Engine for Stilling Complaints, Jan., p. 40.
Short Guide to Titan III Launch Vehicles, Feb., p. 68.
Reusable One-Stage-To-Orbit Shuttles: Brightening Prospects, June, p. 48.
Our R&D Challenge for National Energy Policy, Aug., p. 18.
Prospecting for Energy, Aug., p. 24.
Harnessing Solar Energy: The Potential, Aug., p. 30.
Hydrogen: Transportable Storable Energy Medium, Aug., p. 38.
Power from Laser-Initiated Nuclear Fusion, Aug., p. 44.
Nuclear Fusion by Magnetic Confinement, Aug., p. 50.
Solar Power Via Satellite, Aug., p. 60.
Integral Rocket/ Ramjets for Tactical Missiles, Dec., p. 20.
New Horizons in Chemical Propulsion, Dec., p. 20.

SPACE AND ATMOSPHERIC SCIENCE

Engineering Challenges of Space Astronomy, Feb., p. 26.
Optical Space Astronomy and Goals of the Large Space Telescope, April, p. 22.
High Energy Astronomy (The Dryden Lecture), April, p. 30.
CV 990 Airborne Laboratory Crashes, May, p. 5.
Orbiting Solar Observatory (OSO)—Space System Summaries, July, p. 71.
ERTS-1—Toward Global Monitoring, Sept., p. 32.
ERTS-1—Teaching Us a New Way to See, Sept., p. 36.
A Portfolio of ERTS-1 Highlights, Sept., p. 65.
Venus and Mars Spacecraft Programs—Space Systems Summaries, Sept., p. 81.
Looking at the Solar System in the Far-Ultraviolet, Oct., p. 18.
Exploring Jupiter, Saturn and Their Satellites, Oct., p. 26.
A Great Comet Coming...KOHOUTEK, Oct., p. 48.
Lunar Orbiter Program—Space Systems Summaries, Nov., p. 75.

SPACECRAFT DESIGN AND PLANNING

Man in Space: The Second Decade, Jan., p. 6.
New Space Transportation Systems, Feb., p. 12.
Advanced Technology and the Space Shuttle, Feb., p. 30.
Short Guide to Titan III Launch Vehicles, Feb., p. 68.
ERTS Data for Everyman, April, p. 43.
Refurbishable Spacecraft: Modules and Components for the Shuttle Era, April, p. 44.
Shuttle Payloads: Saving Dollars by Offsetting Risks, April, p. 52.
On-Orbit Checkout and Repair as a Factor in Economical Spacecraft Design and Operation, April, p. 60.
Advances in Modeling Aerodynamic Decelerator Dynamics, April, p. 67.
Skylab: A Good Ride but Only One, May, p. 9.
Skylab Orbital Colony, May, p. 14.
Low Cost Space, May, p. 22.
Airborne-Science Techniques Aid Shuttle Planning, May, p. 24.
Space Science Plans for the Shuttle Era, May, p. 34.
Lower Payload Costs Through Refurbishment and Module Replacement, May, p. 40.
Design Considerations for Shuttle Information Management, May, p. 48.
Space Life-Support and Environmental Control: Systems for the '70s, May, p. 61.
Small Earth Terminals for Satellite Communications, June, p. 40.
Reusable One-Stage-To-Orbit Shuttles: Brightening Prospects, June, p. 48.
Comment on Shuttle Costs, June, p. 56.
A Space and Missile Test Center of the Future, June, p. 64.
Communications Satellite Programs—Space Systems Summaries, June, p. 71.
Solar Power Via Satellite, Aug., p. 60.
Weather Satellites—Space Systems Summaries, Aug., p. 77.
Early Results from Skylab I, Sept., p. 22.
ERTS-1—Toward Global Monitoring, Sept., p. 32.
ERTS-1—Teaching Us a New Way to See, Sept., p. 36.
A Portfolio of ERTS-1 Highlights, Sept., p. 65.
Venus and Mars Spacecraft Programs—Space Systems Summaries, Sept., p. 81.
Exploring Jupiter, Saturn and Their Satellites, Oct., p. 26.
A Great Comet Coming—KOHOUTEK, Oct., p. 48.
Biosatellites—Space Systems Summaries, Oct., p. 79.
Spaceship Earth, Nov., p. 58.
Lunar Orbiter Program—Space Systems Summaries, Nov., p. 75.
Refreshing the NASA Charter, Dec., p. 16.
Dual-Hologram Interferometry: A New Technique for Wind-Tunnel Testing, Dec., p. 27.
New Horizons in Chemical Propulsion, Dec., p. 46.

SPACE MEDICINE

Developments in Space Medicine, Jan., p. 18.
Space Life-Support and Environmental Control Systems for the 70s, May, p. 48.
Planetary Quarantine Goes to Work in the Hospital, June, P. 32.
Early Results from Skylab I, Sept., p. 22.
Biosatellites—Space Systems Summaries, Oct., p. 79.

SPACE SHUTTLE

Man in Space: The Second Decade, Jan., p. 6.
Shuttle Payloads Begin to Stir the Pot, Feb., p. 7.
New Space Transportation Systems, Feb., p. 12.
Advanced Technology and the Space Shuttle, Feb., p. 30.
Refurbishable Spacecraft: Modules and Components, April, p. 44.
Shuttle Payloads: Saving Dollars by Off-Setting Risks, April, p. 52.
On-Orbit Checkout and Repair as a Factor in Economical Spacecraft Design and Operation, April, p. 60.
Low Cost Space, May, p.22.
Airborne-Science Techniques Aid Shuttle Planning, May, p. 24.
Space Science Plans for the Shuttle Era, May, p. 34.
Lower Payload Costs through Refurbishment and Module Replacement, May, p. 40.
Design Considerations for Shuttle Information Management, May, p. 48.

STRUCTURES AND MATERIALS

Refurbishable Spacecraft: Modules and Components for the Shuttle Era, April, p. 44.
Advances in Modeling Aerodynamic Decelerator Dynamics, April, p. 67.
Moving Composites into Spacecraft, May, p. 18.
Structures for Air Transports, July, p. 36.
The Next Careful Steps in Commercial Aircraft Structures, July, p. 38.
Developing Structures Technology for the Day After Tomorrow, July, p. 56.
Understanding the USAF Structural Integrity Program, July, p. 67.
Dual-Hologram Interferometry: A New Technique for Wind-Tunnel Testing, Dec., p. 27.
Recent Advances in Aerodynamic Testing for Transport Aircraft, Dec., p. 30.

AUTHORS

ASHLEY, HOLT
Foreword to a New AIAA Technical Assessment: New Space Transportation Systems, Feb., p. 12.
Our Number One Priority: Membership, Feb., p. 28.
Technical Activities (1972 Annual Report), March, p. 64.
Progress Report on "The Second Program," July, p. 22.
Advice to a Young Person On the Future of Our Profession, Oct., p. 24.
Introduction, "AIAA Action Team on Purpose," Responses from the Membership, Nov., p. 22.
Planning, Feedback, and Purpose, Nov., p. 30.

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION
(Act of August 12, 1970: Section 3685, Title 39, United States Code)

1. TITLE OF PUBLICATION: ASTRONAUTICS & AERONAUTICS
2. DATE OF FILING: October, 1973
3. FREQUENCY OF ISSUE: Monthly

4. LOCATION OF KNOWN OFFICE OF PUBLICATION
1290 Avenue of the Americas, New York, N.Y. 10019

5. LOCATION OF THE HEADQUARTERS OR GENERAL BUSINESS OFFICES OF THE PUBLISHERS (Not Printers)
1290 Avenue of the Americas, New York, N.Y. 10019

6. NAMES AND ADDRESSES OF PUBLISHER, EDITOR, AND MANAGING EDITOR

PUBLISHER
James J. Harford
American Institute of Aeronautics and Astronautics Inc.,
1290 Sixth Avenue
New York, N.Y. 10019

EDITOR
John Newbauer,
AIAA, 1290 Sixth Avenue,
New York, N.Y. 10019

MANAGING EDITOR
Bruce Frisch
AIAA, 1290 Sixth Avenue
New York, N.Y. 10019

7. OWNER: American Institute of Aeronautics and Astronautics Inc.,
1290 Avenue of the Americas, New York, N.Y. 10019

8. KNOWN BONDHOLDERS, MORTGAGEES, AND OTHER SECURITY HOLDERS OWNING OR HOLDING 1 PERCENT OR MORE OF TOTAL AMOUNT OF BONDS, MORTGAGES OR OTHER SECURITIES: NONE

9. FOR COMPLETION BY NONPROFIT ORGANIZATIONS AUTHORIZED TO MAIL AT SPECIAL RATES (132.122, Postal Manual)

The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes

☐ Have not changed during preceding 12 months

(Check one)
☐ Have changed during preceding 12 months

(If changed, publisher must submit explanation of change with this statement.)

10. EXTENT AND NATURE OF CIRCULATION

	Average No. Copies Each Issue During Preceding 12 Months	Single Issue Nearest to Filing Date
A. TOTAL COPIES PRINTED (Net Press Run)	32,066	31,800
B. PAID CIRCULATION		
1. SALES THROUGH DEALERS AND CARRIERS, STREET VENDORS AND COUNTER SALES	None	None
2. MAIL SUBSCRIPTIONS	29,963	29,891
C. TOTAL PAID CIRCULATION	29,963	29,891
D. FREE DISTRIBUTION (including samples) BY MAIL, CARRIER OR OTHER MEANS	988	787
E. TOTAL DISTRIBUTION (Sum of C and D)	30,951	30, 78
F. OFFICE USE, LEFT-OVER, UNACCOUNTED, SPOILED AFTER PRINTING	1,115	1,122
G. TOTAL (Sum of E & F—should equal net press run shown in A)	32,066	31,800

I certify that the statements made by me above are correct and complete.

Nelson W. Friedman
Circulation Manager

Subscription Prices for AIAA Members Reduced 1/2!

	from—	to—
AIAA Journal	$14	$ 7
Journal of Aircraft	$10	$ 5
Journal of Spacecraft and Rockets	$12	$ 6

NOTE—When ordering any of the optional subscriptions, indicate the new price on the appropriate line. See back of application form.
